### Vehicle Description

1979 Chevy C10 Pickup.

Factory 454/th400 A/C truck.

Runs and drives excellent.

20" American racing Torque Thrust II wheels.

Bell tech lowering springs, spindles, rear flip kit, shocks and frame notch.

Stock 454 with chrome valve covers and air cleaner.

A/C needs to be charged which I will do in the next day or so.

New starter.

Truck was purchased from Mecum Auction 1/19 and has been driven about 2000 miles since.

Paint has some flaws. Worst spot is in the center front of the hood and the paint is cracked there. Otherwise pretty minor ships wear.

Truck has had rockers replaced but has clean original floors and cab corners. Only rust is the rearmost bed rail underneath.

Dual exhaust with flowmaster mufflers.

Inside of bed is bedlined yellow. Matches the truck well.

Interior is in overall good shape. Seat has no rips or tears. Dash has a couple of small cracks. Overall it is a great driver. Turns a lot of heads.
